

look at this formula now
where P is going to grow
out of its baby bed (whatever you call it)
break into C in some far future
layers after layers, forget even that
C is here to stay
as it is
it's the journey to C that matters
to E
the road is smoothing the shapes
ghostly attitude of these statistical penetrations
the shapes though, might be angry tad bit
my bit-your bit-all in the formula-not
not, you know not, can't feel the consistency
i can't feel the consistency
this sheet-like expression ll arrive somewhere
the methodology though, sing it to me
